Construction Services

Specialized Equipment

Professional Solutions

Facility Maintenance

This is a primary pillar of their business, specifically under the LOGCAP V contract. They provide comprehensive "base ops" and life support, including plumbing and HVAC, as well as technical inspections and mechanical systems maintenance for military installations.

Base Ops and Life Support, Qatar and Kuwait (LOGCAP V)

Client: Vectrus Systems Corporation

Value: \$23.4M

- Multi-trade base support: inspections, repairs, HVAC, water and wastewater, custodial service, sanitation, equipment leasing, fuel facility support, and security and site infrastructure.

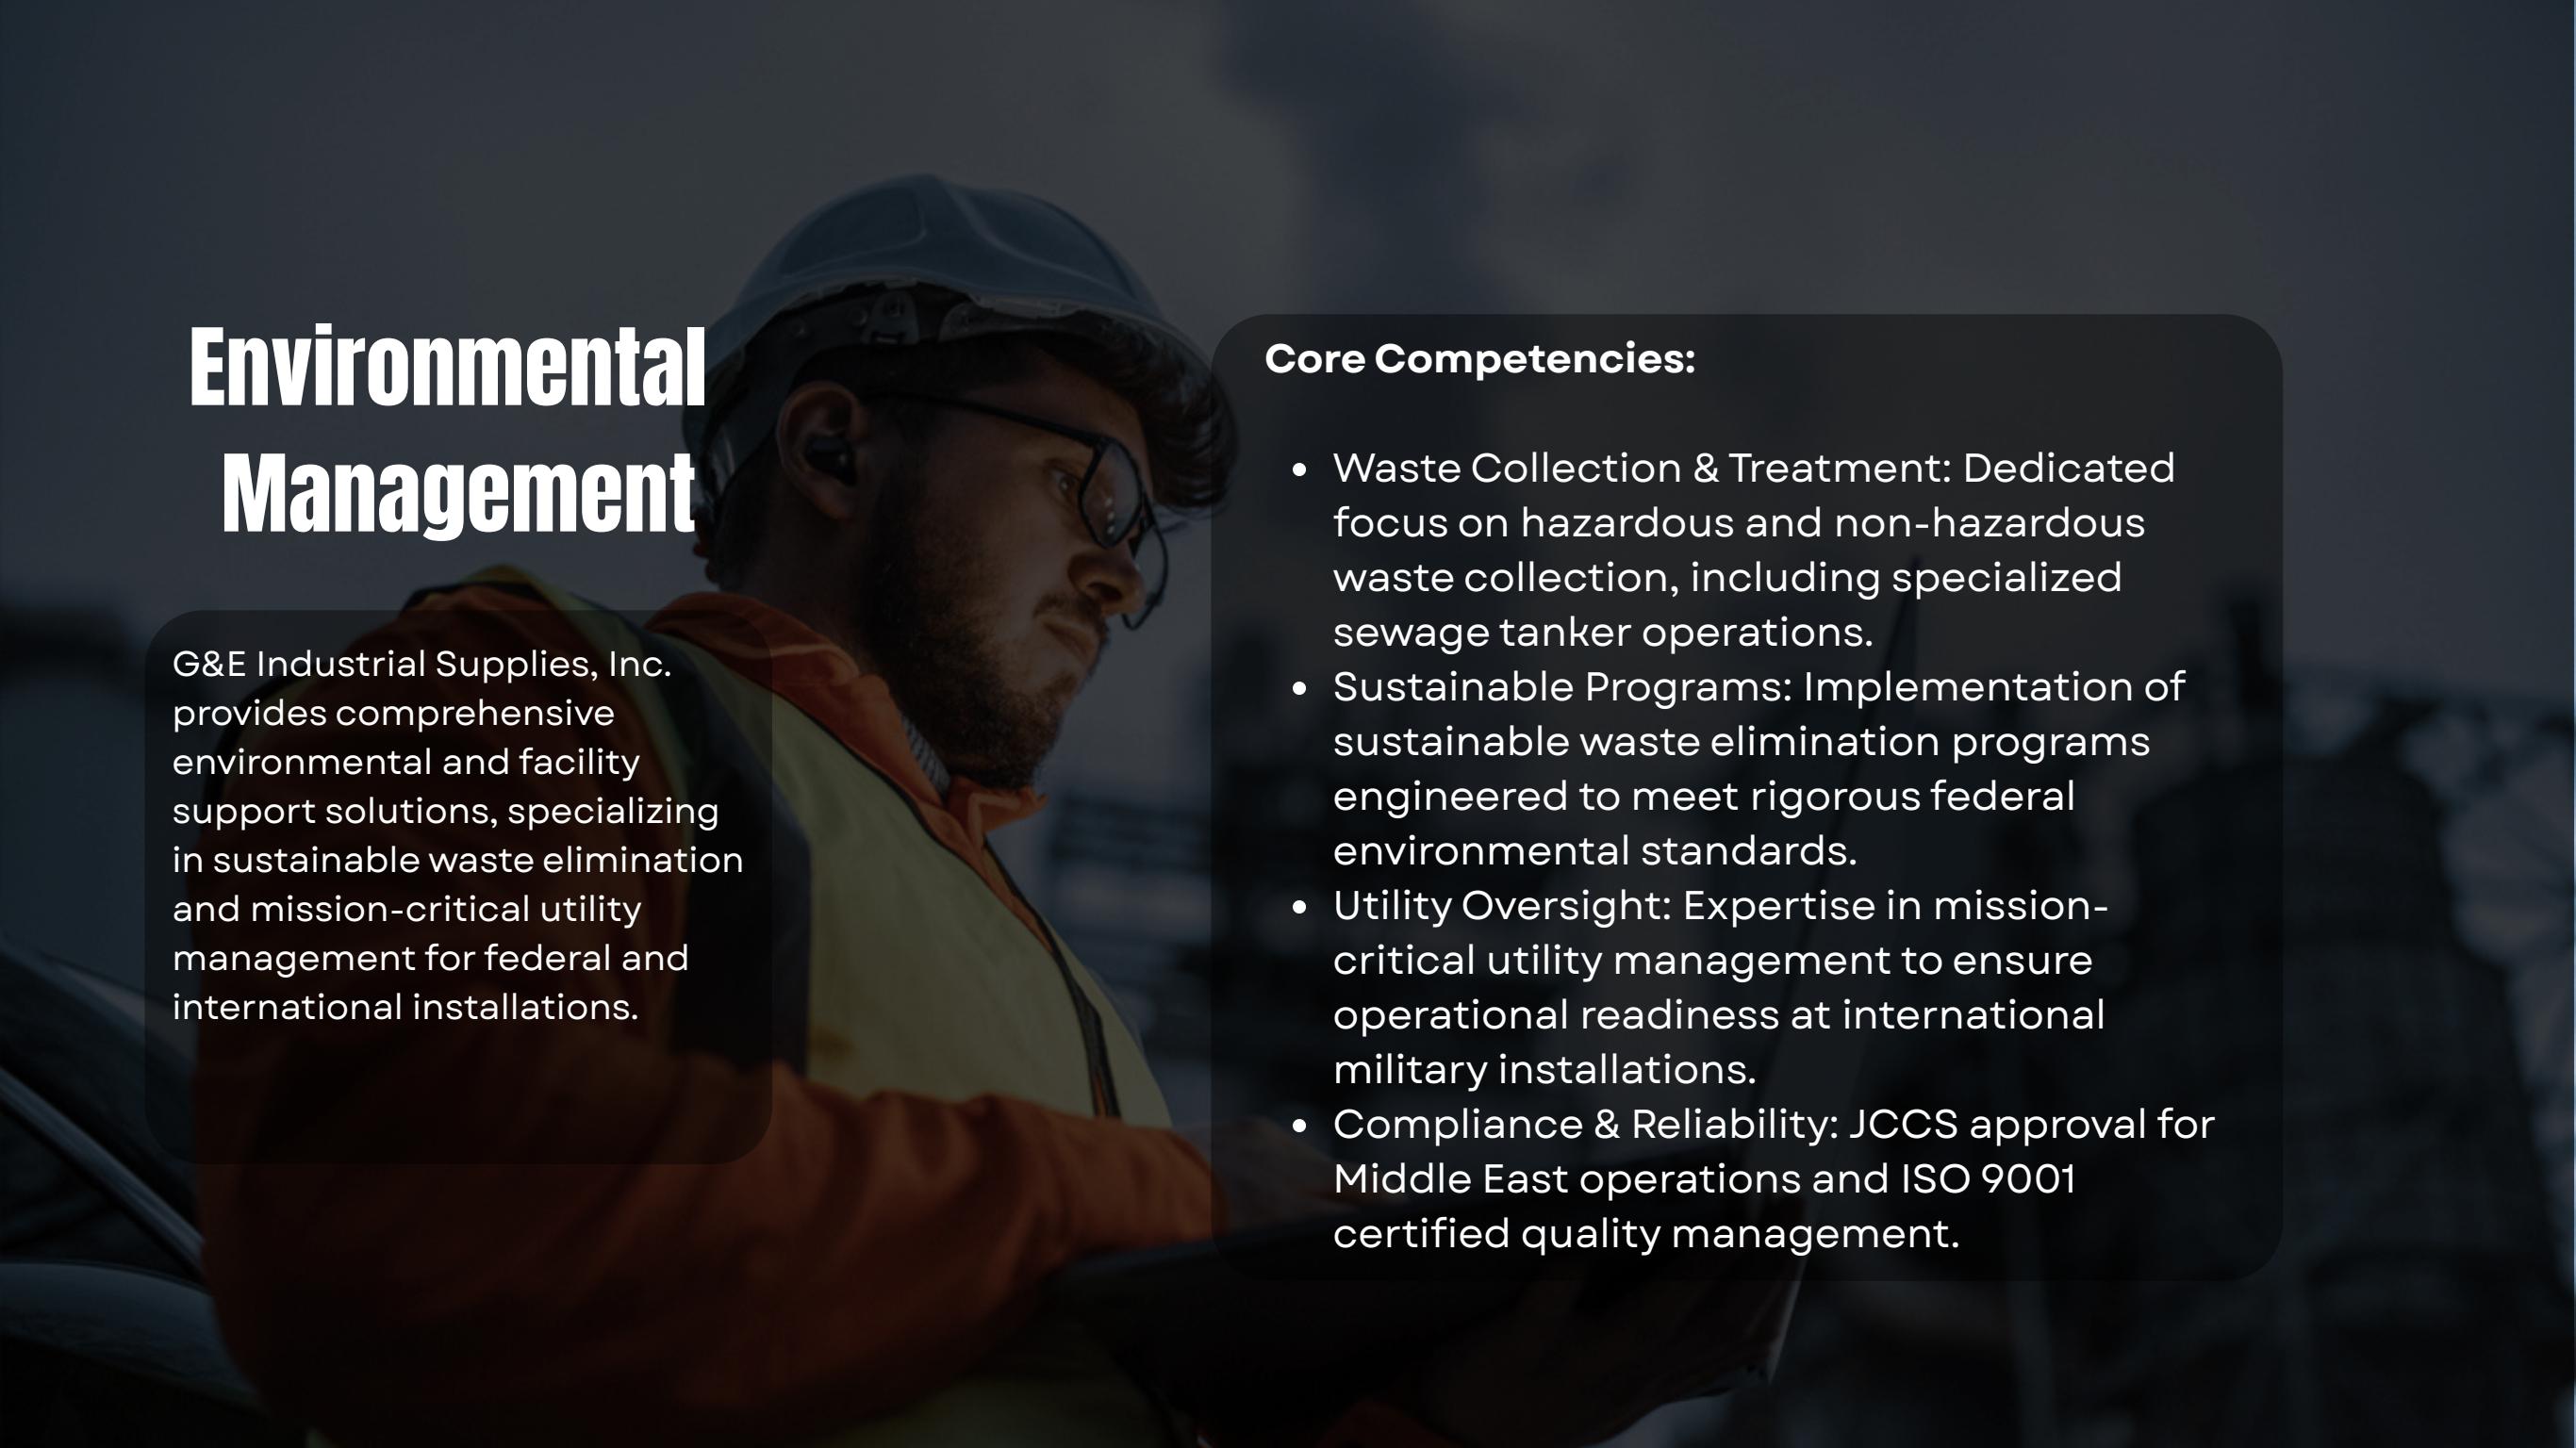

Global Logistics

We serve as a specialized merchant wholesaler, sourcing and delivering industrial machinery, commercial equipment, and specialty chemicals. Their reach is notably global, with a focus on the U.S., Mexico, and the Middle East (specifically Qatar and Kuwait).

Core Competencies

- Strategic Global Reach: Active operational presence in the U.S. and the Middle East, for USACE-Med and AFCENT operations.
- Wholesale & Procurement Expertise: Specialized merchant wholesaler for industrial supplies, commercial equipment, and plumbing/heating machinery (NAICS 423840, 423440, 423720).
- Defense Logistics Integration: Over 40 task orders successfully executed under LOGCAP, providing recurring supplies for facility maintenance and aircraft support.
- Compliance & Scale: JCCS approval for Middle East operations and ISO 9001 certified quality management. Supported by a \$100M aggregate bonding capacity to ensure seamless deployment for large-scale international contracts.

Environmental Management

G&E Industrial Supplies, Inc. provides comprehensive environmental and facility support solutions, specializing in sustainable waste elimination and mission-critical utility management for federal and international installations.

Core Competencies:

- Waste Collection & Treatment: Dedicated focus on hazardous and non-hazardous waste collection, including specialized sewage tanker operations.
- Sustainable Programs: Implementation of sustainable waste elimination programs engineered to meet rigorous federal environmental standards.
- Utility Oversight: Expertise in mission-critical utility management to ensure operational readiness at international military installations.
- Compliance & Reliability: JCCS approval for Middle East operations and ISO 9001 certified quality management.

Construction Services

G&E handles diverse, large-scale infrastructure projects, delivering turnkey engineering solutions that enhance operational readiness for federal and local agencies.

Core Competencies:

- Facility Upgrades: Execution of diverse renovations, including medical air system improvements and modern facility upgrades.
- Specialized Construction: High-stakes performance in roofing services and airfield maintenance and emergency repairs.
- Engineering Support: Professional oversight for civil and electrical construction supervision to ensure total project compliance.
- Bonding Capacity: Supported by \$30M single project and \$100M aggregate bonding capacity to manage high-value infrastructure contracts.

Specialized Equipment

A core pillar of our defense operations involves the deployment and leasing of heavy machinery and tactical vehicles to support global readiness.

Core Competencies:

- Heavy Machinery: Rapid deployment of material handling equipment and heavy vehicles for international construction and defense projects.
- Fleet Management: Flexible passenger car leasing programs tailored to meet the mobility needs of government and private-sector clients.
- Tactical Support: Supply of specialized items, including jet refueler trucks, trailers, and hazardous containment units for defense clients.
- Global Logistics: Integrated logistics and spares support to maintain equipment operability in remote environments.

Professional Solutions

We offer "HR Solutions" by providing mission-critical technical manpower to government and private-sector partners to enhance business agility and operational oversight.

Core Competencies:

- Skilled Manpower Outsourcing: Provision of technically trained staff, including specialized engineers and procurement officers, for long-term contract support.
- Leadership & Management: Delivery of experienced managerial and supervisory teams with a 30+ year reputation for reliability and responsive service.
- Strategic Staffing: Scalable human resource solutions designed to meet the technical requirements of large-scale federal task orders.
- International Expertise: Staffing solutions backed by JCCS approval and experience managing 40+ task orders under LOGCAP.
